To Whom It May Concern,

Based on the Centers for Disease Control recommendations regarding social distancing, District 4 Public Health recommends food service facilities go to a carry out/drive-thru only model. Facilities who decide to continue in-house dining are strongly encouraged to remove at least half of their seats in an effort to limit the number of customers to provide social distancing.

Facilities are required to continue using proper protocols for cleaning and sanitizing frequently used surfaces. Please take these measures to protect your employees and customers.

Below are two links with valuable information. Please review and if you have any questions contact your local County Environmental Health Office.
